

THE QUEEN'S AWARD FOR ENTERPRISE IN INTERNATIONAL TRADE

Teledyne Defence & Space **(A division of Teledyne Ltd)**

Teledyne Defence & Space has won a Queen's Award for its substantial growth in overseas earnings and its commercial success in the space sector.

Teledyne Defence & Space (TDS) is a leader in the design and development of microwave/ RF components and subsystems. TDS is known for its agile design, industrial volume manufacturing processes, and specialist expertise in the defence, security, industrial and commercial space sectors.

From their West Yorkshire base, the Teledyne team are continuing to lead in their field

"We are delighted to win such a prestigious award, which recognises our achievement in core business growth and, in recent years, gaining a strong position in the space sector, producing significant growth across UK and international markets," says Ian Skiggs, Vice President and General Manager of Teledyne Microwave Solutions UK. "This growth is expected to continue and support our strategic goal towards a sustainable, highly skilled, regional business enterprise, recognised as a technology leader in the space sector, and supporting regional investment and jobs across the Yorkshire region."
