

## Teledyne MEC Earns Award for Supplier Excellence from Raytheon

**RANCHO CORDOVA, CA – March 26, 2020 – [Teledyne MEC](#)**, currently celebrating its 60<sup>th</sup> year as a world leader in the development of advanced TWT technologies, has been chosen by Raytheon’s Integrated Defense Systems as a recipient of its 3-Star award for Supplier Excellence.

Raytheon’s Integrated Defense Systems business instituted the annual Supplier Excellence Awards program to recognize suppliers who have provided outstanding service and partnership in exceeding customer requirements. Award candidates are judged on certain criteria, including overall quality and on-time delivery. Teledyne MEC was one of 34 companies recognized by Raytheon’s Integrated Defense Systems business for 3-Star honors.

“Raytheon represents one of our longest and most trusted industry partnerships, and all of the personnel at our Rancho Cordova facility are extremely gratified to have been recognized for achieving such high standards of customer service,” said Rich Palilonis, Vice President and General Manager of Teledyne MEC.

Teledyne MEC, part of the [Teledyne Defense Electronics Group](#), specializes in the design, development, and manufacture of a broad range of Traveling Wave Tube technologies and applications. Teledyne TWTs are found on nearly all major Electronic Warfare, Radar, and Communication platforms of the U.S. and its allies throughout the world. Our diverse product lines also include TWTs used for instrumentation, satellite communications, and other mission critical applications.
